

## JAP SHIPS LIMP AWAY FROM MIDWAY

ARRANGEMENTS  
FOR FLAG DAY  
PARADE PUSHED

State Guard Units from Nearby Counties To Take Part in Program.

C. Roland B. Lee of Columbus, acting adjutant general, will be Governor John W. Bricker's representative in Marion for the Allied Victory parade on Flag Day, Sunday, June 14, it was announced today by the committee of Marion business men and the Marion County War Savings and in charge of the area-wide patriotic demonstration.

Among the representatives of the United States treasury department in the parade will be the Marion Star carriers, salesmen of war bonds and stamps, and the circulation manager in charge of carrier sales, Delmas Jenkins. The carriers will form a marching unit.

Nearby Counties' Plans

Latest developments in parade plans include active participation of Union, Delaware, Crawford, Morrow and Hardin county groups.

C. G. Ohio State Guard of Mansfield will take part, Capt. Leo M. Scheiderer announced. The company will be one of the units of a provisional battalion in the parade, made up of companies from Kenton, Delaware, Bucyrus and Marysville, according to Captain Scheiderer.

Appointment of L. E. Garver, former Marion resident who is manager of the Mt. Gilead office of the Marion-Reserve Power Co., as parade marshal of the Morrow county group was announced by Mr. Mason.

Helps in Morrow Co.

Attorney Nelson Campbell of Mt. Gilead, Morrow county, Ohio, defense chairman, has been invited to act as one of the Morrow county chairmen.

The Mt. Gilead and Kenton High school bands will be in the parade. Arrangements to bring the Kenton band to Marion were made by Mr. Mason with Supt. L. E. McKinley of the school.

Among the many business and industrial plants in the area now engaged in building floats is the Hydraulic Press Mfg. Co. of Mt. Gilead.

DRIVER ARRESTED IN  
AUTO-TRAIN CRASH

Wife Injured As Car Hits Railroad Freight Car.

Betty Marvin, 36, of 762 Congress street was arrested on a charge of drunken driving following an accident early today in which a car he was reported driving struck a railroad freight car at Bellefontaine avenue, police said.

Mrs. Marvin, 26, a passenger in the auto, suffered cuts and abrasions on her face and skull, leg and a cut tongue in the collision.

The train, a C. & O., was reported stationary at the time, and its locomotive near the West street crossing and its cars beyond Bellefontaine avenue.

The auto operated by Marvin, a 1934 Ford, hit one of the cars, overturning it, about 3:27 a. m. today. Railroad officials said "although a watchman was on duty at the time, Marvin apparently disregarded him."

Mrs. Marvin was said to have been driving her car about 30 miles an hour west on Bellefontaine avenue. The front of the auto was damaged.

Mrs. Marvin was later arrested at the scene of the mishap by police. He was held at city prison today to appear before Municipal Judge Hagen. Mrs. Marvin was taken to City hospital in a Gunter ambulance. Her condition was reported fair later today.

Another Arrest Made  
for Curfew Violation

A 15-year-old boy was arrested last night and held at county detention home for violation of the city juvenile curfew ordinance. He was a 15-year-old boy who was found by police on Orchard street about 10:57 p. m. He was reportedly riding a bicycle when arrested.

After being held at the detention home overnight, he appeared before Municipal Judge Gast this morning. After warning him of the repetition of violating the curfew, Judge Gast remanded him to the custody of his parents.

63 Per Cent of British  
People Vote Approval of  
Government's War Effort

Satisfaction with the war effort is rising sharply in Britain, according to a recent poll by the British Institute of Public Opinion.

BY GEORGE GALLUP  
Director, American Institute of Public Opinion

PRINCETON, N. J., June 5.—The British people are more satisfied right now with their government's conduct of the war than they have been at any other time in the past year.

A study by the British Institute of Public Opinion has discovered that public confidence in the government's war policies has, in fact, jumped 28 points in about eight weeks.

Along with increased satisfaction with the war effort, public confidence in Winston Churchill as Prime Minister has risen to within one point of his popularity of July, 1940, before the fall of France.

In March only 35 per cent of the British people questioned in a nationwide survey of England, Scotland and Wales said they were satisfied with their government's conduct of the war. Today's 63 per cent—about three in every four—are satisfied.

Much of the increased satisfaction undoubtedly has its roots in a feeling that Britain is moving toward the offensive operations for which the British people have been calling. Almost nightly air raids and the quick Commando thrusts have done much to bolster this feeling on the part of the British man-in-the-street. The results do not, however, reflect the gigantic Cologne and Essen raids, which undoubtedly would have the effect of increasing the number satisfied with the war effort.

Since June, 1941, the British Institute has put this question to exactly comparable cross-sections of the British population:

"In general, are you satisfied or dissatisfied with the government's conduct of the war?"

	Satisfied	Dissatisfied	Undecided
June, 1941	58%	30%	12%
Nov. 1941	44	38	18
Mar. 1942	35	50	15
April 1942	50	38	12
Today	63	24	13

The drop from June, 1941, to November reflected Nazi victories in Greece and Crete, while the record low of March, 1942, when fully half were dissatisfied with Britain's war effort, was the result of the fall of Singapore and other bad news from the Far East.

Prime Minister Churchill's popularity has been measured at regular intervals by the British Institute since he took office.

A few weeks ago the prime minister held the confidence of 82 per cent of the British public, the Institute found. Today the percentage has risen, as shown by the following:

"In general, do you approve or disapprove of Mr. Churchill as Prime Minister?"	
Approve	87%
Disapprove	8
Undecided	5

BRITISH SEND  
STRONG RAF  
FORCE TO RUHR

London Reports More Than 3,000 Planes Over Germany in Week.

By The Associated Press  
LONDON, June 6.—A strong force of British bombers attacked objectives in industrial districts of the Ruhr last night in operations which cost a total of 13 aircraft, and RAF fighters sped to attack Nazi coastal bases again after dawn, the British announced.

The official statement that 13 aircraft were missing tended to confirm unofficial estimates that possibly as many as 300 planes participated.

A well-posted source said the RAF had thrown more than 3,000 night bombers against Germany in the week ended with last night's raids. The losses were 113, and were estimated at just under four per cent of the assault forces.

"Only the weather will halt the offensive," it was said.

The air ministry reported the night targets were within the Ruhr without identifying the cities attacked. The arsenal city of Essen, hit by 1,000 raiders Monday night, and a moderate force 24 hours later, is a major center in that river valley. A five-point daylight sweep by RAF fighters against Nazi bases in Belgium and France late yesterday, which the air ministry termed "one of their biggest simultaneous offensives," set a fast pace for the fresh assault today.

The sound of heavy explosions echoed from the Boulogne area of the Nazi-occupied French coast. Bad weather caused a break Thursday night in the chain of assaults set off by the 1,000-plane raids on Cologne and Essen.

German air fields and other targets menacingly close to the English Channel—at Ostend, Abbeville, Le Havre, Lannion and Morlaix—were hammered late yesterday by huge aerial bottle formations whose blows were timed together to confuse the defense.

More than 100 Spitfires struck the Abbeville area, in the Somme river valley, and this action was dismissed by a communiqué as a simple "diversionary sweep."

The air ministry's statistical review for May reported that, despite bad weather conditions, the RAF carried out 100 attacks against 38 targets in Europe and the Middle East, climaxing by the first "four-figure" raid of the war, the attacks upon Cologne last Saturday night.

Forty-two axis vessels were declared sunk or damaged off the North European coast and five in the Mediterranean.

In all operations in the two theaters, the ministry said, the RAF destroyed 283 enemy aircraft and lost 301.

British Claim Armored  
Superiority in Africa

By The Associated Press  
Britain's desert armies were reported to have won armored superiority in the 12-day-old battle of North Africa today as tanked British infantry, striking from three sides, pounded the Germans back toward a gap in the Main British defense line.

Frontline dispatches said Nazi Field Marshal Erwin Rommel had already lost 340 tanks, or about half his armored force. British headquarters said British desert armies were reported to have won armored superiority in the 12-day-old battle of North Africa today as tanked British infantry, striking from three sides, pounded the Germans back toward a gap in the Main British defense line.

U. S. COURT ASKED TO  
CUT WAR PLANT SITE

Possible Misunderstanding Is Seen in Reducing Acreage.

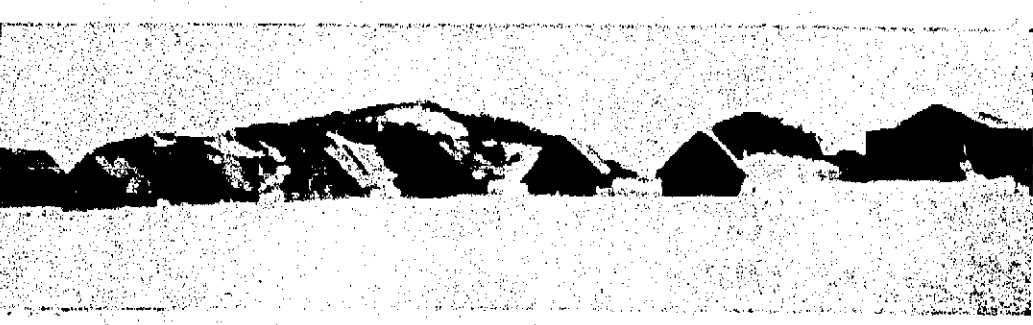

Exclusion of 665 acres near Marion, from property taken by the government for the Scioto Ordnance Plant is provided in an amended petition filed in federal district court at Toledo late Friday by Perd N. Pickens, attorney for the department of justice. The Associated Press reported today. Property at the north and southeast portions of the plot has been restored to the original owners under the amended suit. The government originally took over 12,600 acres of property through a condemnation suit filed April 13.

The office of the Scioto Ordnance Plant, commanding officer here today, was asked to comment on the suit, issued a statement that there "appears to be some misunderstanding" about changing the boundaries of the plant and that an effort will be made to clear it up.

Much of the Sting Taken from Axis  
Offensive with U. S. 6 Months in War

BY JOHN M. HIGHTOWER

WASHINGTON, June 6.—Military experts reviewing six months of global war concluded today that axis striking power has been considerably blunted since the United States plunged into conflict Dec. 7 but warned that the great battles for final, overwhelming victory are yet to be fought.

Virtually all the things that have been done to date—conversion of the nation to a war economy, creation of the huge and growing army, extension of supply lines to all parts of the world—were described as constituting only the prelude to the grand offensives which alone could bring triumph.

How soon and effectively these offensives may be undertaken, it was said, depends partly on the speed of allied preparations and partly on enemy counter-measures in the present main theaters of conflict.

Axis Losing Sting

In the opinion of some well-informed authorities, however, prospects are that a definite turning point in the long fight may be reached this fall; and already there are evidences of fundamental changes in the strategic situation which suggests that both the Japanese and the Germans in Europe and Africa have lost much of the initiative which they appeared to have had firmly in grasp only a month or two ago.

Possibly the most important of these is that the Germans have been unable to start any general campaign to smash Russia but so far have been forced into a war of attrition, with a Red army that gives every appearance of being able to hold its own until a second front can be opened by British and American troops in western Europe.

Meanwhile, Germany's offensive in Africa appears to have been held and industries in Germany itself are suffering heavily from British bombardment.

What the Japanese themselves may do in an effort to secure their already enormous conquests in East Africa and the Western Pacific is a puzzle.

Jap Problem Defensive

As some authorities see it, now the Japanese problem in broad strategic terms is a defensive one. Flushed with their triumphs in Hongkong, the Philippines, Malaya, the Netherlands Indies and Burma, they are nonetheless beset by actual and potential enemies on all sides.

China, although admittedly in grave danger in her eastern provinces, still remains as a base from which Japan may attack the troubled peace between Russia and Japan at any moment. To the south, Australia has become a mighty fortress against

DESPERATE BID  
FOR CONTROL OF  
ISLAND FAILS

Admiral Hints Enemy Defeat May Have Been Greater Than in Coral Sea.

By The Associated Press  
HONOLULU, June 6.—Battered by alert American defenders who seized the offensive, a powerful Japanese invasion fleet limped away today from an attempt to invade Midway island with at least eight warships and transports damaged by United States bombers and submarines.

In announcing that American forces were pursuing the retreating invaders, Admiral Chester W. Nimitz, commander-in-chief of the Pacific fleet, did not reveal the exact toll taken on the Japanese force and made no claim to sinking any of the enemy craft.

But damage to the invasion fleet was "very heavy indeed," he said, including "several ships in each of the carrier, battleship, cruiser and transport classes."

This is a minimum of eight craft damaged by bombs and torpedoes in what the admiral hinted may develop into one of the greatest allied naval victories of the war.

American losses were confined to planes and aviation personnel, alert and fully prepared, who carried the brunt of the attack. Their apparent rout of the first major attempt to invade the strategic mid-Pacific island, which has weathered five previous assaults, wrote "another shining page" in their brilliant defense of America's island outposts.

"While it is too early to claim a major Japanese disaster, it may be conservatively stated that United States control remains firm in the Midway area," the Pacific fleet's commander-in-chief announced last night.

"The enemy appears to be withdrawing, but we are continuing the battle."

No Sinkings Listed Yet

No actual sinkings were listed in the cryptic accounts of the battle which the Japanese opened, with carrier-based planes Thursday after delivering a possible feinting attack on Dutch Harbor, Alaska, with bombers on Wednesday. But Admiral Nimitz said a Japanese aircraft carrier hit by Midway's aerial defenders in the first stages of the fighting later was struck by three torpedoes fired by a submarine.

"As more reports come in," he said, "it appears that the enemy damage is very heavy. Indeed, involving several ships in each of the carrier, battleship, cruiser and transport classes."

It was the first mention made of transports, lending support to the belief that the huge Japanese force, risking much in an assault so far removed from its home bases, had as its goal the actual conquest of Midway, 1,146 miles northwest of Hawaii.

In the desperation of impending defeat, the Japanese were reported by Admiral Nimitz to have machine-gunned United States fliers forced to bail out in parachutes during dogfights. Americans afloat in rubber boats were believed to have suffered similar treatment.

## Fillets Take Brunt

The size and nature of the United States forces were wrapped largely in military secrecy beyond the admiral's statement that "the brunt of the defense to date has fallen upon aviation personnel in which the army, navy, and marine corps all were represented."

But if Japan hoped to catch by surprise the Midway defenders who have beaten off five weaker assaults, dating back to Dec. 7, the surprise worked in reverse. Preparations for just such a major blow, carrying with it a threat to Hawaii and even the United States mainland, have gone forward swiftly since the war opened. They have been so exhaustive that Admiral Nimitz, returning a month ago from a visit to Midway, voiced praise for the effective coordination he had witnessed there.

He said the Midway fliers in the present battle "have added another shining page to their record of achievements" and "on every occasion when we have met the enemy, our officers and men have been superlative in their offensive spirit."

Official Communique

The communique, second on the battle issued by the commander-in-chief of the Pacific fleet, read: "The Japanese have not followed up their initial air attack on Midway island except for a few ineffectual shots from a submarine during last night."

"As more reports come in, it appears that the enemy damage is very heavy. Indeed, involving several ships in each of the carrier, battleship, cruiser and transport classes."

## "The Stranger—"

A Sermonette By REV. H. C. MIREN, Pastor Salem Evangelical and Reformed Church

"I was a stranger and ye took me in" Matthew 25:35.

In a recent issue of The Star there appeared a letter written by a non-member, in which he related his experiences in visiting a local church, which must have created a great deal of comment. The writer's experiences have been the experiences of most people at one time or another, as they visited churches in various parts of the country. They like the average pastor and layman, hence the subject "The Stranger within thy gates."

This passage taken from the fourth commandment has an especial significance for us who are living in and around Marion. It reminds us that God, the Father of all mankind, not only wanted a certain class, race or group of people to rest from their labors and worship on the Lord's Day—but the stranger within our gates as well. Since this is God's will, it certainly behooves us as Christians not only to make it possible for strangers to worship, but to invite them to our respective churches and make them feel at home in our churches.

In every stranger we have the personification of the Christ who said, "I was a stranger and ye took me in, or I was a stranger and ye took me not in; for inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto Me."

Every stranger within our gates offers an opportunity and a challenge to do something for Christ who had a warm heart and hand for the strangers within His borders.

St. Paul reminds us in his epistles that "there is no difference between Jew and Greek, for the same Lord over all is rich unto all that call upon Him."

While attending Eden Seminary in St. Louis, Mo., a fellow student and I visited many churches in the city to become better acquainted with the various denominations. We had many experiences like the writer of the letter mentioned above. On one occasion at the close of the service a middle-aged woman sitting in the pew before us turned and introduced herself saying, "I notice that you are strangers. We are pleased to have you visit and worship with us. If you should be looking for work or for a church home I will be only too glad to be of service."

We thanked her for her interest, explained our mission, and went our way, but I never forgot this woman's reception. Though this woman was not a member of our denomination, her kindness and her willingness to consider her invitation had been looking for a church home or employment.

Thank God for these fine souls in our churches. Would to God we had more of them. We have folks in our clubs, lodges and fraternities whose duty it is to receive and welcome strangers, why shouldn't every Christian think of themselves as a member of a committee not only to welcome but to invite strangers in the name of our Master who said: "In as much as ye have done it unto one of the least of these my brethren, ye have done it unto Me." Amen.

The subject, "God the Only Cause and Creator," will be read in all churches of Christ, Scientist, Sunday morning. The Golden Text will be "Lord, thou art God, which has made heaven and earth, and the sea, and all that in them is," Acts, 4:24.

New Members of Prospect Street Methodist church will be given a reception at a congregational meeting Thursday night at 8. The W. S. C. S. will sponsor the reception.

Mrs. Mary Burroughs of Marion will preach on "For the Duration," Sunday night at 7:15 in the Pleasant Hill church near Marion. All children of the community will take part in a Children's day program on June 21.

A Children's day program and offering for missions will be featured Sunday morning in Greenwood Evangelical church. The service will start at 9.

Rev. W. E. Budzett will deliver a prophetic sermon on "The Future Battle for Palestine," Sunday night at 8 in the Marion Gospel Center.

Miss Stella Mower, an active missionary in the Philippines will be featured Sunday morning in Greenwood Evangelical church. The service will start at 9.

## PRIVATE CAR SEIZURE NOT LIKELY SOON

Ownership of Tires, However, May Be Limited.

By DAVID J. WILKIE

Wash. World Automotive Editor

DETROIT, June 6—Governmental requisitioning of privately-owned passenger automobiles is not in prospect for the current year, at least, according to private information reaching automotive industry authorities here.

The immobilization of from two to three million such vehicles through restrictions on excess use, ownership, on the other hand, is wholly within the possibilities of the coming six months. An order banning the ownership of more than five tires by any one person or family would bring this about, it has been estimated, without imposing any great hardship on the families accustomed to the use of two or more vehicles.

One of the anomalies of the present situation, affecting the motoring public is that despite the lack of production, the relatively small stock of new cars, and the shortage of automobiles or automobile transportation at the moment.

Undoubtedly without the restrictions on new car sales and the threat of fuel rationing to save tires there would be a demand far in excess of the supply. It cannot be said, however, that there would be actual need in like volume.

Besides the approximately 400,000 unsold 1942 models produced prior to Feb. 10 there are many thousands of second hand vehicles in dealers' possession upon which there are no sales restrictions. Yet they are attracting fewer buyers than most trade experts expected when restrictions on new car assemblies first were proposed.

Most, if not all, of these vehicles may be expected to be absorbed before requisitioning of privately-owned cars becomes imminent, the industry experts assert.

While many of the automobile company executives last December predicted a serious shortage of passenger vehicles during 1942 most of them now agree that with careful use and the elimination of non-essential operation the cars now privately held plus those in dealers' hands can be made to last not only through 1943 but 1944 as well.

## UNFAIR TO LOVE

CHAPTER 22

Kiss For A Role

THE moon had evidently decided to be as generous as the weather man, and soon it was high above the trees that surrounded the pond. Its soft radiance turned the pond into a sheet of quick-silver. And sliding over this silvery surface moved three canoes.

Joe Neely, in one of them with Daisy Doran, felt strangely philosophical. He kept thinking of the high above the trees that surrounded the pond. Its soft radiance turned the pond into a sheet of quick-silver. And sliding over this silvery surface moved three canoes.

## LARGER PAY CHECKS SAVINGS

They should go hand-in-hand for a number of very good reasons. First, the pay checks will quite likely be reduced in time and savings will be needed for the adjustment period; second, articles unobtainable now will need replacement; third, old age is certain to come and you want comforts not otherwise providable. # FORUM PLANS RADIO SERIES

Sunday Broadcasts To Be Started Tomorrow with Graduates Speaking.

Plans were completed today to broadcast the Marion Forum this summer over radio station WMRN. The first program of the new series will be broadcast from 4:30 to 5:00 p. m. tomorrow.

Announcement of the Forum radio series was made by County Supt. D. T. Mills, co-chairman of the program committee.

The series is planned to be broadcast every Sunday from 4:30 to 5:00 p. m.

Mills said the reason for the new broadcast rather than at Edison Junior High school was because of the automobile shortage, many persons could not reach the school any longer.

The idea for the radio series came from the recent "I'm an American Day" program, which was broadcast over WMRN and was planned by Forum officials.

Plans for the new series were made at a luncheon meeting May 20 at the Hotel Harding. Forum leaders who attended included: Dr. J. L. Bell, pastor of Central Christian church, president of the forum; E. C. Holt, city superintendent of schools; vice president of the forum; and R. N. Heinemann, forum treasurer.

Co-Chairman Named

Dr. J. L. Bell was named co-chairman of the program committee. The meeting was held in the dining room of the Hotel Harding. Other leaders who attended included: Dr. J. L. Bell, pastor of Central Christian church, president of the forum; E. C. Holt, city superintendent of schools; vice president of the forum; and R. N. Heinemann, forum treasurer.

## Noted Scientist Doubts Return To Natural Rubber

MIDLAND, Mich., June 6.—Dr. Willard H. Dow, relating the discovery and development of a synthetic substitute that may see many American motorists through the war years, said here yesterday that he thinks he will never return to natural rubber, however abundant it may become.

Dr. Dow, president of the Dow Chemical Co., here.

Outlining the history of the synthetic rubber "thiokol" now being developed by the Dow company, Dr. Dow said a Kansas City chemist came upon it by chance 13 years ago.

From this, Dr. Dow said, may come the substance with which 1,000,000 automobile tires may be retreaded each month—starting this summer—to help meet the war-created shortage and solve much of America's transportation problem.

Chemists and tire manufacturers, Dr. Dow said, have been seeking substitutes for rubber, "but never among the thermoplastics."

"Once these are accepted," he predicted, "we shall go forward and I think we will never return to natural rubber after the war, however abundant it may become."

Dr. Dow credited the discovery to Dr. J. C. Patrick of Kansas City, who he said, came upon it in 1929 while trying to perfect an anti-freeze solution for automobile radiators.

Dr. Patrick mixed ethylene dichloride with sodium polysulfide and to his surprise obtained a gummy substance which looked like rubber that actually bounced.

Chemists have developed variations of the original formula to meet special need, Dr. Dow said, and major tire companies are experimenting with thiokol.

He said its tensile strength was nearly as great as that of rubber and that "complete tire casings have run up to 10,000 miles without showing appreciable wear."

## PHOTOS SHOW RAF FINISHED COLOGNE

Nazi Paper Admits Old Town "Lost Forever."

LONDON, June 6.—British bombers devastated more than 3,000 acres of Cologne in the first of the RAF's 1,000-bomber raids this week on the Ruhr and Rhineland, the air ministry disclosed today.

Railway workshops in Nippes, suburb of the big war industry town, were hit hard, photographs of the attack showed.

An air ministry source declared that "the greater part of the old town of Cologne is finished."

(Cologne newspapers reaching Bern yesterday said the old Rhineland city, as its people had known it, was "lost forever" and described a scene of desolation with some sections still burning and "whole quarters of the town empty.")

Among the big factories smashed by high explosives and burned out by the spreading flames, the air ministry source said, were the vast Vulkan works, the Rheinfelde plant and K. G. Mauser, producers of arms and steel for the German war machine.

He said an area of 660,000 square yards in the Ehrenfeld district northwest of the city, where thousands of industrial workers are housed, was flattened.

A close examination of reconnaissance pictures of the district showed nothing but row on row of ruined homes, he said.

The East end of the great Hindenburg bridge which crossed the Rhine at the heart of the town was said to have been hit squarely with a heavy bomb.

The air ministry news service said there were three other "major areas of devastation" in the city: one of approximately 86,000 square yards west of the main railway station; another of 43,000 square yards south of the cathedral; and a third of 90,000 square yards near the west city station.

At the Koln-Mulheim factory, the news service said, two large buildings, 300 by 120 yards and 120 by 60 yards were ruined by fire, and a group of other buildings was damaged seriously.

"In other areas," it added, "entire blocks of buildings have been gutted, their remains showing only the ground plan."

## SUGAR RATIONING PLANS ANNOUNCED

Spring Canning Program To Continue Here Next Week.

Sugar rationing for spring canning only will continue in Marion city and township next week, Marion County Rationing Coordinator John P. Probst announced today.

"Applications for fall canning will be received later," Mr. Probst reassured today that there will be sugar for all who need it when the time comes for fall canning, and urged women "not to become panicky."

He asked that applicants know the approximate number of quarts of fruit they will can in order to expedite the work at the rationing office at 193 East Center street.

Women volunteers from the King's Daughters, serving without compensation, have made it possible to carry on the program of receiving applications, Mr. Probst said today. He asked that applicants be brief in making their statements, "as it is a very trying task which the volunteers have undertaken."

Each rationing board in the county has set up its own hours for applications and have announced the hours in their territories, Mr. Probst said.

## Sudden Illness Fatal To Crawford Co. Man

BUCKEYS, O., June 6.—Austin Woodward, 61, of two miles south of Buckeys, suffered a heart attack last night at 7 in downtown Buckeys and died an hour later in City hospital. A native of Pennsylvania, he had lived at the present farm home for the last 35 years.

Surviving are the widow, Mrs. Bertha K. Sineheller Woodward, six children, Leroy, Clyde and Leonard, at home, Mrs. Donald Ruhl of Marion county, Mrs. James Allen of Mansfield and Foster Woodward of Washington, D. C., four brothers in Pennsylvania and a sister in Michigan. The funeral will be conducted Tuesday at 2 p. m. in Epworth Methodist church. Burial will be made in Oak Grove cemetery.

rier, battleship, cruiser, and transport classes. This damage is far out of proportion to that which we have received.

"The brunt of the defense to date has fallen upon aviation personnel, in which the army, navy and marine corps all were represented. They have added another shining page to their record of achievements."

"One carrier, already damaged by air attack, was hit by three torpedoes fired by a submarine. On every occasion when we have met the enemy, our officers and men have been superlative in their offensive spirit."

"There have been reported several instances of enemy planes machine-gunning our aviation personnel who bailed out in parachutes or were adrift in rubber boats."

"While it is too early to claim a major Japanese disaster, it may be conservatively stated that United States control remains firm in the Midway area."

"The enemy appears to be withdrawing, but we are continuing the battle."

"The fight for Midway is for the last island outpost west of Hawaii still in United States hands. Guam and Wake island fell to the Japanese, the latter after an epic struggle by the marines."

"But Midway held on, turning aside shelling submarines and bombing planes so valorously that Admiral Nimitz went to the island to decorate the defenders personally."

Midway's outpost is poised like a dagger over Japan's Marshall Islands to the southwest and the enemy's big gamble, its first with such heavy and costly armament in all the battle it has waged at sea to date, was indicative of its determination to knock out the possible stepping stone to a westward resurgence of the United States in the Pacific.

## At 6-Month Mark U. S. Well on Way with War Effort

By DEWITT MacKENZIE, Wide World War Analyst

As Uncle Sam reaches the half-year mark of his participation in the "war for survival" he has not only satisfied himself of knowing that he and his allies are on their way to a victory from which they need not be diverted except by their own shortcomings.

Such an optimistic outlook probably will evoke protests from those who feel that we shall win ultimately but believe the general public should be led to view the situation with utmost seriousness. Their opinion is that the public will work harder if it believes we are getting a beating.

Maybe so, we feel the man in the street thinks soundly enough and the best results are obtained by giving him the facts. And one fact is that we are getting ahead with our job of beating the axis.

Not Out of the Woods

That doesn't mean we're out of the woods and romping home to victory. On the contrary we are on the verge of the bloodiest fighting in the whole war. We are about to measure arms with Hitler in a decisive battle which may open any day.

There are frightful dangers yet to be surmounted, and if we don't intensify our effort resolutely we shall be beaten. But we definitely can win if we go all-out.

Uncle Sam's greatest individual achievement lies in production—in starting from scratch and in six months making such great strides that on May 19 Donald Nelson, WPB chairman, was able to announce that the United States war production was "greater than the axis in every category."

That isn't to say we have caught up with the axis nations, because they are profiting by years of intensive effort. It does mean that we are set to overtake them—if we strain every nerve.

That is of vast importance because this is a war of resources, of which production and transportation are an integral part.

Failure of the man at home to produce could wreck our war effort just as quickly as could a revolt of the soldiery. So upon the extent of our production depends the length of this war—and a very long conflict will be disastrous even if we "win."

Hitler Was Wrong

With good reason we have profited in both the worker and the soldier. Hitler declared that America couldn't increase her production in time to save the allies. But we are on the way to perform just that feat. Washington officials in close touch with production say the war might be brought to a turning point this year, although victory couldn't be expected nearly so soon.

America's fighting-men now are in all theaters, and Lieut. General Brehon Somervell, U. S. army supply chief says "we can fully equip any troops we can send abroad." Our tanks—so vital in modern mechanized warfare—are working for all our allies, from Australia to the smoking sands of the Libyan desert, and the lonely slopes of Russia. We surpassed Nazi tank production months ago.

Our warplanes are battling in all zones. The account they are giving need not be repeated. Under Secretary of War Patterson says the United States will produce more than 50,000 planes this year—the mark for which President Roosevelt called.

One of our great set-backs has been the axis ship sinkings, but last month we turned out 58 big ships. And by September, experts say, we will be launching three a day and by January or February four a day.

Thus, taking things on the whole, as we enter our second semester we can go in with heads up.

## SOLDIERS ASSURED OF \$46 A MONTH

## BLAST FAILS TO HALT ELWOOD OPERATIONS

Munitions Roll Out As Dead, Injured List Mounts.

By The Associated Press

JOLIET, Ill., June 6.—Munitions for America's fighters rolled off the Elwood Ordnance plant lines in volume today while army officials attempted to identify all the 51 persons dead or missing in an explosion.

The thunderous blast destroyed a shipping building in the shell loading plant but halted production in only one of the 12 units in the vast works. The other loading lines continued on a 24-hour-a-day basis.

Army officers said the demolished structure could be replaced readily and that the group of which it was a part would be back in production "very shortly."

While the plant staff awaited the arrival today of an army board of inquiry from Washington, Captain David Tunstall, press relations officer, said there was no evidence of sabotage.

The cause of the disaster was unknown, he said, and probably could not be determined before debris is cleared away.

The blast, which shook northeastern Illinois with earthquake force felt 100 miles away, occurred early yesterday while 68 men were in the shipping building. It was the first serious accident at the \$30,000,000 works which spreads over 15,000 acres.

Army officials told at the grim business of identifying victims. The count so far showed 22 persons were known to be dead and of those 19 had been identified. The other three were listed on a roster of 32 described as missing. Forty-one injury cases were treated.

Because the plant's buildings are scattered over miles of flat prairie the explosion was localized to this single structure although the force was so great that windows were shattered in buildings miles away.

BUCKEYS, O., June 6.—Nina Betrol, 82, died this morning in her home here after a two-year illness of a heart ailment. She was a native of Buckeys.

Surviving are her husband, Mr. and Mrs. William Betrol, and a daughter, Mrs. Mary Betrol, who lives in Buckeys.

Mrs. Betrol was a member of the Buckeys Methodist church and was a member of the Buckeys Grange.

## U. S. Ship Sinks Sub and Eludes Another

By The Associated Press

SAN JOSE, COSTA RICA, June 6.—The newspaper La Tribuna said today the United Fruit ship Albatross sank a submarine and eluded another when they attacked her in the Gulf of Mexico while she was en route to Puerto Limon.

The Albatross was a 10,000-ton ship, owned by the United Fruit Co. and was carrying a cargo of bananas.

The ship was attacked by a submarine on June 4, and the Albatross sank the submarine.

## MRS. SHOWERS DIES AFTER LONG ILLNESS

Marion County Woman Succumbs Friday at Home.

Mrs. Ella Jennie Henninger Showers, 61, of five miles north of Marion, died at 2 p. m. Friday after an illness of three years.

Mrs. Showers was the daughter of Mr. and Mrs. William Henninger and was born at Jamesville, O., July 23, 1880.

Surviving are two sisters, Mrs. Ella Harvey and Mrs. Isaac Cramer, both of Marion. Her husband, John Showers, and a son, Earl, preceded her in death.

Funeral services will be conducted at 2 p. m. Monday at the Boyd-Greathouse funeral home on West Columbia street by Rev. Garrison Roebuck of the First United Brethren church, of which Mrs. Showers was a member. Burial will be made in Forest Glen Memorial park.

## SALES TAX NEEDED, HOUSE GROUP HOLDS

Committee Says Other Levies Won't Raise Funds Needed.

By The Associated Press

WASHINGTON, June 6.—The house ways and means committee was reported today to have put the administration on notice formally that its tax goal of \$9,700,000,000 could not be achieved without a sales tax.

Informed sources said that Chairman Doughton (D-N.C.) and other high-ranking committee members had told Secretary Morgenthau that they could not write that big a bill without overruling Morgenthau's opposition to some form of consumption tax.

Faced with that attitude by the committee, Morgenthau promised to make a written statement on the situation soon.

The committee thus far has proposed to raise only about \$5,500,000,000, but has not started consideration of treasury recommendations that another \$1,310,000,000 be raised by increased excise taxes—the last big item in Morgenthau's March 3 suggestions.

Committee members predicted it would be another month before a bill is presented to the house. When passed there, it will face perhaps six weeks of study in the senate.

That it might go to President Roosevelt for signature by Sept. 1, but some members said they might be a reprieve of the 1918 situation when congress waited until the turn of a new year before completing its labors.

In any event, much higher taxes for both individuals and corporations seemed assured, primarily because of the government's need for revenue. The ways and means committee has boosted corporation taxes by \$2,500,000,000, primarily by raising surtaxes slightly and boosting the excess profits rate from a graduated scale with a 60 per cent top to a flat 64 per cent for all.

The individual normal tax has been raised from 4 to 6 per cent and personal exemptions have been lowered from \$1,500 to \$1,200 for married persons and from \$750 to \$500 for single persons.

## "Ship Ahoy," New Comedy, To Open Week at Palace

Eleanor Powell, Dorsey Orchestra and Red Skelton in Cast; "True to the Army" Coming.

A combination of dancing and comedy by Eleanor Powell and Red Skelton, with Dorsey's orchestra, is the new comedy "Ship Ahoy," which opens at the Palace tomorrow. Powell offers five comedy new dance routines. In one of them she taps out a Morse code message to notify her friends that enemy agents are operating. The other dances include a specialty in which Miss Powell imitates a bull fighter, a clever soft shoe routine and a tap in rhythm with Buddy Rich, trap drummer of Dorsey's orchestra.

When a tap dancer's feet speed at the rate maintained by Miss Powell, not even a high speed movie camera can keep up with them. For that reason extra speed had to be electrically installed on the camera that followed her feet in "La Torria" bullfight dance. As the star tapped around the 18 foot building the camera traveled 25 miles an hour in order to catch the movements of her feet as well as the swirling of the matador cape which whirled 742 times during those nine seconds. From the records of the meters it was discovered that the camera had

traveled 255 miles during the filming of the dance.

## Plenty of Music.

The story carries Miss Powell as an innocent victim of espionage in a colorful Latin-American atmosphere, where Red Skelton promptly falls in love with her. The plot is gay and exciting and Tommy Dorsey and his orchestra aggregation play a variety of melodies, including "Mendocino Bay," "I'll Call for Love," "I'm Getting Sentimental Over You," "Hawaiian War Chant," and "I'll Take Takulala."

"Mickey," the story of a misunderstood boy who just can't avoid trouble, will be on the screen Wednesday. Bobby Blake, in the title role, is a lovable and talented youngster. It is his first role out of the "Our Gang" pictures, and he makes the most of it. Donna Reed, as his stepmother, and Dan Dailey, Jr., as his father, are equally impressive.

Mickey is a boy who has been reared by a Negro cook and nurse and finds it difficult to adjust himself to life with a stepmother.

After two appearances in a juvenile court, they are able to work out a solution to their problem. Colonna-Canova Team. Jerry Colonna makes eyes at Judy Canova in Paramount's riotous army life melodrama, "True to the Army," which comes to the Palace Thursday through Saturday.

Allan Jones and Ann Miller help Colonna hide his Judy in an army camp out of reach of gangsters who are after her because she saw them kill a person. Colonna tries to make an army man of her for the duration, but the hoax doesn't last long.

Being shown along with "True to the Army" is "The Falcon Takes Over," in which a clever amateur detective, the police and an escaped convict seeking revenge all take part in the pursuit of a mystery girl who has disappeared. George Sanders enacts the little role and Lynn Bari makes her debut as the heroine.

international order can be imagined without Russia as one of its great supports. Russia touches us in the Pacific, Russia touches Japan and China and India and the Middle East and the Balkans and Central Europe and Scandinavia and Germany.

If there is to be peace in the world, that peace has to be made in full partnership between the English-speaking sea and air powers and the massive land power of Russia. The alternative is the loss of the war, chaos after the war and more interminable wars for generations to come. That partnership, which events matter of opinion or personal preference. It is the result of one of the decisive judgments of history, which has made visible to us the foundations of power and of interest upon which, if we build it, we must build.

## Comedy On Marion Bill

Laurel and Hardy Picture on Double Bill with "Valley of the Sun."

Against the background of Morocco and the Foreign Legion, Laurel and Hardy stage their antics in "The Flying Deuces," their new comedy which will be shown Sunday and Monday at the Marion on a bill with "Valley of the Sun," produced against the background of the famous Taos Indian country in northern New Mexico. There will be a midnight preview tonight.

Laurel and Hardy appear as two Foreign Legionnaires sentenced to die for desertion. The action begins when they take flight in an endurance ship. Jean Parker has the ingenue role. Lucille Ball, James Craig, Sir Cedric Hardwicke and Dean Jagger are the four-star offering in "Valley of the Sun," an action drama of '68, moving around a scout who circumvents a massacre incurred by an unscrupulous Indian agent.

"A Gentleman at Heart," starring Cesar Romero, Carole Landis and Milton Berle, and "Face at the Window," a thriller, will be shown Tuesday and Wednesday. Romero plays a racketeer "bookie" who turns his talents to the arts.

Hugh Herbert is the star of "You're Telling Me" and the "Three Mesquiteers" are starred in "Code of the Outlaw," the feature for Thursday through Saturday. Herbert plays the star alumnus of a score of correspondence schools. For 40 years his aunt and uncle, Esther Dale and Ernest Truex, try to find him a job.

## Ohio Shows "Juke Girl"

Ann Sheridan, Ronald Reagan Star in Feature To Show Through Wednesday.

Ann Sheridan and Ronald Reagan, who scored hits in "King's Row," are together again in "Juke Girl," the feature attraction at the Ohio through Thursday.

Miss Sheridan plays a girl to whom dancing means everything. Wherever there's music and gaiety she is to be found. When the picture opens she and her girl friend, played by Kaye Emerson, are working in a Florida tavern frequented by a bunch of gruff but friendly itinerant fruit and vegetable pickers.

Into this town come two pals played by Ronald Reagan and Richard Whorf, looking for work. When they first meet Miss Sheridan, Reagan and she are attracted to each other almost immediately, but Whorf doesn't pay much attention to her. They soon learn that George Lockhart, who owns a large packing plant, runs the town's industry and to a large extent its social life. When anyone wanted a favor or a job they had to see Lockhart or his cohorts.

A happy-go-lucky vegetable farmer, played by George Tobias,

is neither happy nor lucky when Lockhart refuses to pay him a reasonable price for his produce. Reagan and Sheridan side with Tobias and try to help. Whorf thinks it more practical to string along with Lockhart and there is a parting between the two friends.

Reagan and Tobias form a partnership which goes along favorably until Lockhart interferes and Tobias is killed during a brutal fight. The film reaches a climax when Lockhart implicates Reagan and Sheridan with the killing and organizes a lynch mob to take care of them before they can be brought to trial.

# New York Yankees Rap Cleveland 6-3; Reds Defeat Braves Twice

## Philadelphia Rookie Loses 15-Inning to St. Louis Browns, 1-0.

By The Associated Press

Al Smith's star was on the summer side of the Cleveland dust-out today after the postcard pitcher became the first Indian to lose five games this season.

To avenge Lefty Al's 4 to 3 defeat yesterday at the hands of the New York Yankees, the redskins picked Chubby Dean to hurl today. Dean, a longtime Yankee nemesis, whipped them 7 to 2 at Cleveland last month.

It was the first and third innings which whipped Smith yesterday. New York scored three runs in the first inning on three walks, two singles and a double before Al fanned the ninth man he faced, Pitcher Lefty Gomez.

Smith allowed two more runs on three singles and a fielder's choice in the third frame before he went to the showers.

Meanwhile the Indians scored two runs in the second inning on two walks, a fielder's choice and an error. Their final marker came in the fifth when Les Fleming singled home Jeff Heath, who had doubled.

Sympathetic baseball fans tried a tear today for Rookie Richard Fowler of the Philadelphia Athletics, who might have been pitching yet if it hadn't been for Walt Judnich of the surging St. Louis Browns.

For 15 innings last night, the 21-year-old Canadian-born right-hander, blanked the Browns on eight hits. At the same time, however, his miles were finding Johnny Niekirk just as tough. Then George Caster relieved Niekirk after 12 frames, and he proved even tougher.

### Longest Game of Year

So the teams moved into the 16th inning in the longest game in the major leagues this season and Judnich opened with a triple against the right field, wall, only extra-base hit of the game.

Chet Laabs scored him with an outfield fly and the Browns took the 1-0 decision. The Athletics dropped back into the American league cellar, passing the Washington Senators on their way.

It took the Senators ten innings to wrest a 3-2 verdict from the Detroit Tigers in another of the three night games on the major league slate. Buck Newsom won his second game from his former teammates.

The Tiger, defeat helped the New York Yankees add a full game to their American league lead. The Yankees stopped the second-place Cleveland Indians, 6-3, stretching their margin to nine and a half games over both Cleveland and Detroit and notching their 24th victory in 28 games.

### Red Sox Win

The Boston Red Sox protected their first division berth, half a game ahead of the fifth-place Browns, by turning back the Chicago White Sox, 4-2. Lou Finney drove in three of the Boston runs.

In the national league's only night game, the New York Giants moved into third place by whipping the St. Louis Cardinals, 3-1, on the four-hit pitching of Dave Koslos.

The Cardinals loss boogied the lead of the Brooklyn Dodgers to six and a half games, although Brooklyn split a double bill with the Chicago Cubs.

The Dodgers downed the Cubs, 6-3, in the opening game, but the Cubs pushed over a tenth inning run to win the second 4 to 3.

The Cincinnati Reds pulled the Boston Braves down into a fourth-place tie with them by taking both ends of a double-header, 3-2 and 6-1.

At Pittsburgh, the Pirates broke a ten-game losing streak, but they had to come from behind twice to nip the Philadelphia Phils.

## Weintraub Slips To 16th Place in A. A. Batting Role

By The Associated Press

CHICAGO, June 6—George Lacy and Andy Gilbert of Louisville have moved to the top in the American association batting race while St. Paul's Phil Weintraub, habitual pacemaker, has skidded from first to sixteenth.

Weintraub's surprising drop was the main development in statistics computed through Thursday noon and reflected the fate of the whole St. Paul club which has been bounced around considerably in the last week.

The first baseman was hitting a fine .353 a week ago, but this Thursday's average was .314. Lacy moved to the top with .350. Gilbert had .355. Ed Stanky of Milwaukee led in doubles with 16 and Joe Brantford of Indianapolis in triples with seven. Minneapolis' Hub Walker still led in homers with 11, and John McCarthy of Indianapolis was tops in runs batted in with 39.

Most sacrifice hits, seven, have been made by Toledo's Milt Byrnes, and king of the base stealers was George Myatt of Columbus with 10.

Kansas City's Herb Karpel headed the pitchers with three wins and no losses. Rugger Arzidoni and Frank Shea, also of the Blues; Fran Barnett of Columbus and Ray Campbell of Milwaukee each have won two and lost none.

## American Baseball Congress Suspends National Tourney

By The Associated Press

LOUISVILLE, Ky., June 6—The American Baseball Congress has decided to suspend its senior elimination contests and annual national championship tournament at Batle Creek, Mich., for the duration of the war.

Herbert L. Taylor, Louisville, acting president of the congress, announced here. Taylor said the executive committee of the congress and major league representatives voted the suspension at a meeting in Washington a month ago, but delayed announcing the plans at the request of government officials. He asserted the action was taken because of rationing regulations which would curtail automobile travel in the summer.

The congress will continue to promote state and sectional play throughout the war, Taylor announced.

## 72 Tee Off Today In Hale America Sectional

By The Associated Press

CINCINNATI, June 6—Anticipating keen competition for eight qualifying places in the National tourney, 72 golfers sought to get a good start this afternoon in the first 18 holes of the 54-hole Hale America open tournament sectional at Kenwood Country club.

Byron Nelson of Toledo, former U. S. Open champion and exempt from qualifying, was on hand to show the way to an entry list divided almost evenly between professionals and amateurs, including talent from Ohio, Kentucky, Indiana, Pennsylvania and West Virginia.

The remaining 36 holes of the 54-hole medal competition are scheduled tomorrow.

## Charleston Senators Break Losing Streak

By The Associated Press

CANTON, O., June 6—The Charleston Senators, leaders in the Mid-Atlantic league pennant chase, snapped their three-game losing streak with a 5-3 triumph at Canton last night and strengthened their hold on the coveted top spot.

Eric and Dayton split a double-header, Dayton taking the opener 5 to 3 and the Senators the nightcap 6 to 3.

At Springfield, outfielder Johnny Naponic put the Yankees into front in the first inning with a home run and the Yankees went on to win 5 to 4.

## O. S. U. IN THIRD PLACE

By The Associated Press

MADISON, Wis., June 6—Wisconsin's baseball team squared off today against Ohio State in an attempt to avenge yesterday's 5-2 defeat by the Bucks. The victory gave Ohio State undisputed possession of third place in the Western conference race but Wisconsin could tie the Bucks in the standings by winning today.

 United States bombers destroyed 40 Japanese planes in Burma. Other for Pacific developments.  
 Battle of China — Japanese front-line dispatches asserted that Japanese troops had captured an important air base near the ancient walled city of Chongshen and were heavily attacking 40,000 Chinese defenders on the outskirts of the city itself.  
 Chongshen is a key rail point in western Cheung province, on China's east coast.  
 Domei dispatches said the Japanese had captured two other towns on the rail line between Chongshen and Nanchang, 300 miles to the west.  
 Imperial Tokyo headquarters claimed that four allied submarines had been sunk in Japanese waters in the last few weeks, one of them in Tokyo bay.  
 Australia — An allied plane was believed to have sunk a Japanese submarine within a few minutes after it had torpedoed and sunk an Australian merchant ship off the coast of New South Wales.  
 Six and possible seven Japanese undersea raiders had previously been reported sunk in Australian waters since last Sunday.

# EUROPE

(Continued from Page 1)  
 An troops launched an offensive Thursday night west of Knightsbridge, 15 miles southwest of Tobruk, and sustained the attack successfully throughout yesterday.  
 Military observers said the situation was rapidly boiling toward a showdown, with Rommel's main forces hard pressed in the block, "Devils Cauldron" on the east of the gap which has trapped columns dashed through the British minefields between Ain el Gazzi and Bir Hacheim.  
 Caught behind this 20-mile line, Rommel was said to be counting on using the gap as an escape hatch in the event he is forced to retreat westward and once more.  
 The British said Gen. Neil M. Ritchie, British field commander, was pressing the initiative after driving the axis out of Tamar, east of Knightsbridge.  
 Heavy British artillery fire from the south and north hampered axis attempts to organize a counter attack, while British columns which pushed far to the axis rear attacked German supply lines bringing vital fuel to Rommel's mechanized forces.  
 An Italian communiqué acknowledged that the British were on the offensive, declaring that British armored attacks had been repulsed. The German high command said briefly that as a force had gone over to the counterattack.  
 Other European war developments:  
 Russian Campaign—An uneasy quiet prevailed over the long but difficult as both sides maneuvered for a renewal of the bloody conflict.  
 Soviet dispatches again reported only minor actions in which several hundred Germans were killed or wounded.  
 Nazi Terror—The toll of Czechs slain by German firing squads in reprisal for the assassination of Reinhard Heydrich, the Gestapo hangman, rose to 203 as the body of the 34-year-old "protector" of conquered Czechoslovakia lay in state.  
 Twenty-six more Czechs were sentenced yesterday by courts martial which had been set up by Heydrich himself.
